Mastek Bauer SX 2000 Engine Set

POWERFUL. EFFICIENT. RELIABLE

The Mastek Bauer SX2000 Engine Set is built for high-performance slurry transfer in drag-hose systems. Powered by a 200hp (150kW) 6-cylinder engine, it delivers exceptional pumping capacity of up to 300 m^3/h (1320 US gpm) and a manometric head of 140 m (459 ft).

Can handle up to 12% solids

- with 300 m^3/h capacity and 140 m head
- Chops large solid particles efficiently
- High vacuum suction for maximum performance

200hp (150kW) 6-cylinder engine

- 1000 ltr fuel tank
- Pump directly coupled to diesel engine
- Robust build for long-term durability

Ideal for drag-hose systems

- Low operating cost and easy maintenance
- Economical and efficient in operation

Spreading **Sustainability**
